Introducing Mimosa
Czech & Speake's fresh floral fragrance for women and men

A sensual, elegant and mesmerising fragrance that evokes the mood of a warm summer evening. Mimosa is a fusion of fresh florals and warm spices with a soft, dry finish. The first impression is an alluring blend of light, green geranium and rich notes of ylang ylang which unfold to reveal an exquisitely heady floral heart of the finest mimosa and jasmine essential oils.

Extracted from mimosa blossom, the distinctive floral character is enhanced with fresh woody-green overtones giving the fragrance its unique quality. The base note of the fragrance brings together spicy notes of clove and woody benzoin absolute, for a rich, warm finish.

Mimosa is sophisticated and personable and is a lively addition to Czech and Speake's distinguished fine fragrance collections.
